

## **VMF:s Values**

### **Background**

This value's purpose is to make the Veterinary Medicine Association (VMF) an environment where everyone feels welcome and where everyone is treated nicely and fairly. All union members are expected to together take responsibility for ensuring that the following points are complied with in all the student union's activities. The values aim to summarize the student union's ethical foundations, serve as a reminder in daily activities and make these available to all members.

The points are based on, among other things, the UN Universal Declaration of Human Rights and ensures equal rights, justice and equality of the people as well as promote democracy.

### **Equality**

All people are of equal value. All the members voices are of equal value and all members who want to be involved in the student union shall be allowed to be so.

### **Openness**

Differences is an asset and everyone should feel included in the student union's community. Everyone shall be met free from prejudice and with acceptance.

### **Respect**

The student union's activities must take care of, and take into account, people's prerequisites and respect their rights to their opinions.

### **Joy and solidarity**

Joy and community are strong driving forces for the student union's activities and a prerequisite for us to have fun and feel good. The student union must be a source of new energy and motivation for the members during their studies.
